## FROM OUR DIRECTOR

"REshape was a mere thought in my mind eight years ago"

"I truly believe that this population has been overlooked and dismissed throughout the years and I wanted to, not only help, but shed a light on this issue. "

## OUR STORY

After Jamie [Executive Director] experienced a different kind of loss when her brother was sentenced to life in prison without parole, she searched for answers about the many questions she had regarding people, the criminal justice system, and her purpose. Jamie went back to school to understand the way people think. It was then that she learned about the gaps within the system. After research, collaboration, multiple discussions, and determination; REshape was established.

## SOLUTIONS

"When we talk about mental health, substance abuse, jail, and prison, people tend to shy away from it. But the more that people open up about mental health issues such as depression, anxiety, and substance abuse the more that other people can relate, which leads to more of a connection. " - Jamie
